ACCURACY: If you prefer to piece larger borders and then cut the word block down to size, instead cut (2) 2" x 5½" sashings for the outer borders, and cut (2) 2" x 22" top and bottom borders. Once you've assembled the full word, trim the block to 21½" x 7½".

SPACING: There's an extra space built into the letters 'T' and 'I' in order to make the finished letters 4" across. If you want, cut the sashings either side of the 'T' and 'I' only 1" x 5½" to visually have all the letters more evenly spaced. The block will finish 44" x 7" instead. You can then add (2) 1½" x 7½" sashings to the full row at the end to make it all line up.

SPACING: There's an extra space built into the letters 'I' and 'L' in order to make the finished letters 4" across. If you want, cut the (2) sashings between M-I-L only 1" x 5½" to visually have all the letters more evenly spaced; and then also eliminate the sashing between the L-Y. Cut (4) sashings as normal, and the block will finish 29" x 7" instead. You can then add (2) 1½" x 7½" sashings to the full row at the end to make it all line up.

Just a reminder, the lettering for this QAL is from the pattern-for-purchase **Mini Alphabet Quilt** by **Primitive Gatherings** (PRI 442). You can find the pattern at your local quilt shop (or they can order it for you), and select retailers have the pattern as a PDF download.

We're giving you the words assembly along the way every month, but if you want to work ahead, here's a summary of how to calculate your sizing:

- A. Each Letter Finished = 4"x5"
- B. Each Sashing between Letters Finished = 1"x5"
- C. Each Top/Bottom border Finished = 1"x (width of letters + sashings)
