## Dutchman's Puzzle

Block is 6.5"

## Assembly

1. Place a $B$ square on the right end of the A rectangle. Sew across the diagonal. Trim 1/4" away. Press towards the triangle corner.
2. Place another B square on the left end of that rectangle. Sew across the diagonal. Trim 1/4" away. Press towards the triangle corner.
3. Trim to $3.5^{\prime \prime} \times 2$ " rectangle. Repeat for all A rectangles.
4. Sew two flying geese rectangles together with points heading the same way. Press away from the point. Repeat so you have 4 blocks.
5. Place the four blocks together with the flying geese pointing outwards. Sew two blocks together to make a row. Sew the two rows together.
6. Trim to $6.5^{\prime \prime}$ square if needed.
