

Cutting

A	(1) 3.5" square
B	(2) 3.25" square
C	(2) 4" square

Block is 6.5"

Assembly

1. Cut the two B squares diagonally in half once to make 4 triangles.
2. Cut the two C squares diagonally in half once to make 4 triangles.
3. Place two of the B triangles on either side of the A square. Sew with a 1/4" seam. Press seam towards the triangles.
4. Sew the other two B triangles on the other two sides of the A square. Press seam towards the triangles.
5. Trim to 4.75" square which should be 1/4" away from the squares points.
6. Place two of the C triangles on either side of your square. Sew with 1/4" seam. Press towards the triangles.
7. Sew the other two C triangles on the other two sides of your square. Press seam towards the triangles.
8. Trim to 6.5" square.
